DEPARTMENT OF BENGALI

On 21st February 2021, a webinar was held on the area of Amar Vasha Amar Sampad The prime focus was to inculcate the importance of language as an important resource which all people of our society owe it. The webinar contributed largely in the proliferation of the language.

The department on the 19th Day of February 2020, organized a national seminar on Dwi-Shatajanmabarshe Vidyasagar: Fire Dekha (The bi-centenary of Vidyasagar: A Relook). The seminar reexamined the immense resources from Pandit Iswarchandra Vidyasagar's activities for the uplift of not only the education of Bengal but the downtrodden people . The seminar encompassed different humanitarian endeavours of Pandit Vidyasagar and how those steps are still relevant in the beleaguered society in India.

The department with ardent enthusiasm observed the international Mother Tongue Day entitled 'Amar Ekushe' on 21st February 2020 in commemoration with the great martyrdom of the warriors of Bangladesh who sacrificed their lives for the cause of their mother tongue. Earlier the same programme was held by the department on 23rd February 2019.

The department organized a special programme – an International webinar – to create awareness on the people of lower caste society. The international webinar was entitled Swadhinata Uttar Bangla Kathasahitya Nimnoborgiyo Chetanar Kromobibikash (A Subaltern Consciousness in the Post Independent Bengal). The programme was held on 19th July 2020.

The department has always strove for practical application of the literary text into the social life and never has given importance on the 'text and performance' disseminating the culture of the subject. From that point of view, on 28th June 2019, the department organized a national seminar on 'Chhay O Sater Dashaker Natak' (The plays of 1960s and 1970s). The students understood the immense contribution of the plays of these two decades in 1960s and 1970s for the development of people.

Cultural Programme

The department organizes different cultural programmes which are regarded as part of the curricula of literature. Both the faculties and the students regard that these cultural programmes are essential for deeper comprehension of the different cultural aspects embedded in the different topics of the subject.

Some of the cultural programmes organized by the department of Bengali are as follows:

- On 05th day of September in the years 2017, 2018 and, 2019, the Department organized Teachers Day Celebration.
- On 18th Day of March 2018 and 16th Day of March 2019 The department of Bengali organized Basanta Utsav.
Faculty Exchange Programme
- On 24th March 2019, the department of Bengali ventured into a faculty exchange programme with Deshbandhu College for Girls, Kolkata.
- On 13th May 2019, the department of Bengali had the second faculty exchange programme with Deshbandhu College for Girls, Kolkata.

DEPARTMENT OF PHYSICS

Departmental Activities from 2019 - 2023

In this academic session the College was closed due to Covid -19 pandemic. But all academic, cultural and extracurricular activities were conducted throughout the year to maintain natural enthusiasm of our home-bound students.

Regular online classes in Google meet / Zoom platform were conducted by our teachers maintaining a pre-published routine. Video- recording of lectures were uploaded to Google Classroom for those with poor network connectivity. Study materials were provided in Google Classroom. Regular online tests/quizzes were conducted to keep up their motivations.

To incorporate interest in practical implementation of Physics knowledge we encouraged students to know and deliver seminars on Working Principle of household equipments like Refrigerator, Tube light and Electric fan. On 7th, 8th & 9th July 2020 we had three sessions of online 'Chat Physics' where students delivered lectures on topics mentioned above.

A YouTube channel for the Department was introduced on 10th July 2020 with the name 'Physics PJC' which showcases our Departmental activities.

To commensurate the present pandemic situation an International webinar was organised on 15th July, 2020 by the department titled 'Mathematical Modelling of Covid-19' with more than 250 registered participants from all over the India. Our Speaker Dr. Amit Kr Chattopadhyay, Reader in Mathematics at Aston University, Birmingham, England, UK, Senior Fellow of Higher Education Academy of Aston University & a Fellow of the Institute of Mathematics and Applications, UK is a front line researcher of the subject. It was a very lucid yet technical Lecture on Herd Immunity and Containment of Covid 19 followed by an interesting discussion between the Speaker and participants.

On 22nd August 2020, a Psychological Counselling Session for the Students of Physics Department was conducted as a part of the Students Mentoring Programme. Dr. Prajna Maitra, erstwhile Associate Professor of Botany of our college, delivered a lucid talk on the Covid 19 pandemic how to deal with it. Dr. Sutapa Ray, Associate Prof. Of Philosophy of our college, held an very interesting interactive session with the students addressing and identifying their various psychological stresses. Our motto was to educate students about the utility of psychological counselling and to cross the barrier of social taboo against seeking psychological and psychiatric help when needed. With 45 students, 3 departmental teachers and two counsellors it was a very fruitful 4 hours session. A basic counselling (Google) form was distributed and thus collected amongst students to make them aware of their psychological state of mind.

In the midst of pandemic to welcome the season of festivity, our Honours students presented a colourful online cultural programme 'Sharodutsav 2020', on 17th October. They presented a wholesome program which showcased their hidden talents of art and craft, song and drama and above all digital presentation of it all. Our ex students also joined the online program. At the end Dr. Kisor Mukhopadhyay exhibited travel and wild life photography with description of each item, igniting the interest of photography and tourism amongst youngsters.

On 19th February 2021, 4pm – 7pm, Department of Physics organised a Faculty Development Programme on "Quantum Mechanics in Python" in Google Meet platform. A very useful discussion on newly introduced CU 5th Semester Python syllabus were done by Dr. Abhijit Kar Gupta, Associate Prof. Panskura Banamali College & Dr. Ananda Dasgupta, Associate Prof. IISER. Around 70 Physics Faculty from various Colleges participated in this endeavour of ours.

Recently, for this academic year our Department entered into a Student and Faculty Exchange Program with Department of Physics, Gour Mahavidyalaya, Mangalbari, Malda, Gour Bango University. Dr. Kisor Mukhopadhyay of our College teaching a Module on Python Programming and Dr. Anirban Ray of Gour Mahavidyalaya is teaching ARDUINO to Physics Honours students of both the Institutions. The online classes are held on Google Meet Platform. Assignments and Lecture Videos are uploaded regularly in designated Google Classroom.

On 8th May, 2021 students of Honours course along with the teachers celebrated Rabindra Jayanti in Google Meet. 'Kobi pranam'. Students presented the life and works of Rabindra Nath Tagore in an hour long program along with appropriate recitations and songs. A srutinatak 'Anteshthi Satkar' added humor to the session. The presentation as a whole showcased our students' organisational and cultural abilities, which is commendable.

A Fresher's Welcome was organized by our sixth semester students on 29th November 2021 to welcome first semester students and as a token of introduction to the old students of the department. Various cultural programs were organized by them.

A farewell program was organized by the students of 2nd and 4th semester for the outgoing 6th semester students. The program was successfully conducted with songs, recitations, dance and emotional speeches by the students and teachers.

To incorporate interest in modern advancement in physics we encouraged students to know and deliver seminars on different modern aspects of physics like Quantum Computing and Science behind Black Hole. On 20th and 22nd December 2021 we had two sessions of 'Chat Physics with Tea' where students delivered lectures on topics mentioned above. More than 35 students and teachers were present in those sessions.

On the occasion of National Science Day a lecture competition was organized by the the department of physics along with department of chemistry of our college on 12.03.2022. The students of our department participated in this event along with students of other science departments. A presentation competition on Eminent Indian Scientists" or "Reputed Indian Institute of Science and Technology" was organized and students delivered lectures on these topics which made the programme a grand success. Participating students got certificates of participation along with few awards who delivered best and interesting lectures. A impromptu quiz competition was conducted by Dr. Dolanchampa Saha, held for all 34 students and 17 teacher spectators were present during the competition. A ball pen for first correct answer brought much enthusiasm amongst the audience

An educational tour to Digha was organized on 24-25 May 2022 by the department to encourage and motivate our students. Total 12 students, 4 teachers and 1 non-teaching staff were participated in this programme.

During last two academic years our Department entered into a Student and Faculty Exchange Program with Department of Physics, Gour Mahavidyalaya, Mangalbari, Malda, Gour Bango University. Dr.Kisor Mukhopadyay of our College teaching a Module on Python Programming and Dr. Anirban Ray of Gour Mahavidyalaya is teaching ARDUINO to Physics Honours students of both the Institutions. On 20th August, 2020, Dept. of Computer Science, Prabhu Jagatbandhu College, in association with Dept. of Computer Science, NarasinhaDutt College, Howrah organized a one day state-level webinar. Two eminent personalities, Dr. Palash Dey from IIT, Kharagpur and Prof. Nabendu Chaki, Department of Computer Science and Engineering, University of Calcutta had delivered their speech on Game theory and Data Warehousing respectively.

The webinar began with eloquent opening speech delivered by Dr. Soma Bandyopadhyay, Principal of NarasinhaDutt College and terminated by concluding lecture delivered by Principal of Prabhu Jagatbandhu College, Dr. S. K. Ray. The whole webinar was organized successfully by immense help from Principal, Prabhu Jagatbandhu College, Dr. S. K. Ray.

The topic, "Game Theory" is the formal study of interaction between "self-interested (or "goal oriented") systems (or "agents" or "decision makers" or "players". Such strategic scenarios that can be applied to an extraordinary range of subjects including Mathematics, Economics, Political Science, Evolutionary System and most importantly in Computer Science. The speaker Dr. Palash Dey had given a broad overview of some of the basic concepts of game theory.

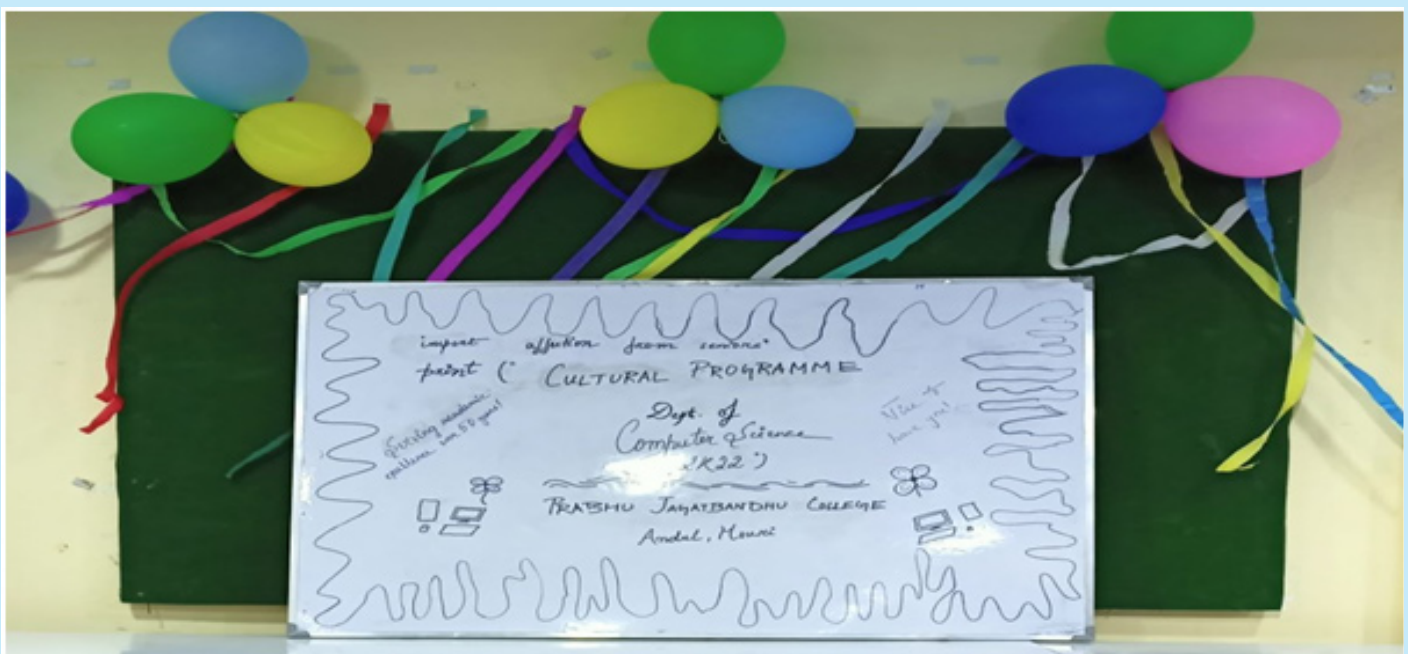

Dr. Palash Dey was an Assistant Professor of IIT-Kharagpur. In recent past (2017-18) he was a post doctoral fellow of School of Technology and Computer science, Tata Institute of Fundamental Research, Mumbai. He had acquired his doctoral degree from Indian Institute of Science, Bangalore in December 2016. He was interested mainly in theoretical Computer Science, Design of algorithms to address social problems. He had around seven journal publications and publications in about 27 peer reviewed conference proceedings. He had acquired several awards like recipients of the "ACM India Doctoral Dissertation in 2018, Best Ph.D Thesis in IISc in 2018, Google India Ph. D fellowship to name a few.

"Data Warehouse" is a large collection of business data used to help an organization to make decisions. It helps in decision support system that reveal business intelligence. Data warehousing is solemnly used for performing queries and analysis and often contains large amount of data.

Lecture on Data Warehousing was delivered by Prof. Nabendu Chaki, Department of Computer Science and Engineering, University of Calcutta. He did his first graduation in Physics from Presidency College and then in Computer science and Engineering, from the University of Calcutta. He completed his Ph.D in 2000 from Jadavpur University. By then he was sharing six US international patents. He had authored six text and research books and more than 150 Scopus Indexed research papers in journals and International conferences.
